

Bio-Circularity Label

Workshop

15:00-16:30

28th June or 4 July

Join the workshop, find out your status,
and receive a Bio-Circularity Label!

Sign up [here!](#)

Receive tailored recommendations on how your city can become more circular.

Become part of a network of European cities and learn best practices from others.

Rank your city amongst other European cities and benchmark with other European cities.

The label measures the following areas:

Policy

Political ambitions, strategies and implemented policies.

Society

Participation, awareness, and initiatives.

Consumption and waste patterns

Including water and organic waste.

Resource management

Collection, reuse, recycling, distribution, use.
